

Bertarelli Symposium 2022: Understanding and Conquering Pain
Harvard Medical School, Martin Conference Center, 77 Avenue Louis Pasteur, Boston, MA
Monday, October 17, 2022

Time	Event	Venue
8:45-9:00 AM	Coffee and Pastries	Atrium
9:00-9:15 AM	<i>Opening Remarks</i> George Daley , Dean of the Faculty of Medicine Harvard Medical School	Martin Conference Center Amphitheater
9:15-10:15 AM	Keynote Lecture David Bennett Professor of Neurology and Neurobiology, Head of the Division of Clinical Neurology, The University of Oxford <i>Human Pain Channelopathies</i>	
10:15-10:25 AM	Film Viewing Introduction by David Corey , Bertarelli Professor of Translational Medical Science Harvard Medical School	
10:25-10:45 AM	Break	Atrium
10:45-11:15 AM	David Ginty Chair of the Department of Neurobiology; Edward R. and Anne G. Lefler Professor of Neurobiology, Harvard Medical School <i>The Sensory Neurons of Touch and Pain</i>	Martin Conference Center Amphitheater
11:15-11:45 AM	Gregory Scherrer Associate Professor in the Departments of Cell Biology and Physiology, University of North Carolina, Chapel Hill <i>Neural Circuits and Therapeutics for Pain Unpleasantness and its Cognitive Modulation</i>	
11:45-12:15 PM	Andrew Todd Professor of Neuroscience, University of Glasgow <i>Neuronal Circuits for Pain and Itch in the Spinal Dorsal Horn</i>	
12:15-1:00 PM	Lunch	Atrium
1:00-1:30 PM	Fan Wang Investigator, McGovern Institute and Professor of Brain and Cognitive Sciences, Massachusetts Institute of Technology <i>Engineering Placebo Analgesia</i>	Martin Conference Center Amphitheater
1:30-2:00 PM	Isaac Chiu Associate Professor of Immunology, Harvard Medical School <i>How Bacteria Modulate the Nervous System and Pain</i>	
2:00-2:15 PM	Break	Atrium
2:15-2:45 PM	Alexander Chesler Senior Investigator, National Institutes of Health <i>Molecules and Cells for Touch and Pain</i>	

Bertarelli Symposium 2022: Understanding and Conquering Pain
Harvard Medical School, Martin Conference Center, 77 Avenue Louis Pasteur, Boston, MA
Monday, October 17, 2022

Time	Event	Venue
2:45-3:15 PM	Sara E. Ross Associate Professor of Neurobiology and Anesthesiology, University of Pittsburgh <i>Population Imaging of Central Sensitization</i>	Martin Conference Center Amphitheater
3:15-3:45 PM	Rebecca Seal Associate Professor of Neurobiology, Center for Neuroscience, University of Pittsburgh <i>Neural Circuits as a Basis for Pain Therapies</i>	
3:45-4:00 PM	Break	Atrium
4:00-4:30 PM	Paul Negulescu Senior Vice President and Site Head of San Diego Research, Vertex Pharmaceuticals <i>Discovery and Development of Selective Nav1.8 Inhibitors for the Treatment of Pain</i>	Martin Conference Center Amphitheater
4:30-5:30 PM	Keynote Lecture Steve Waxman Bridget Flaherty Professor of Neurology, Neuroscience and Pharmacology, Yale Medical School <i>Huxley's Science Fiction: Pain, Pain Genes, and Pain Resilience Genes</i>	
5:30-6:00 PM	<i>Closing Remarks</i> George Daley , Dean of the Faculty of Medicine Harvard Medical School Ernesto Bertarelli Fondation Bertarelli	
6:00-7:00 PM	Reception	Atrium
